A Questionable Arrangement.

The Municipal Council of Victoria have just passed a By-Law for raising a Municipal Revenue for the current year, which to our mind contains a very objectionable principle, and one we venture to say without a precedent in the history of Municipal bodies. We do not call in question the good intentions of the Council in adopting the principle to which we take exception; but however praiseworthy their intentions may have been, the principle itself is essentially bad and cannot be successfully defended. We allude to the proposed discrimination in the rates to be levied and collected upon city property, that portion lying within the city limits as defined by the Letters Patent issued by the Lieutenant Governor in Council, on the 25th day of January, 1873, except such lands as are by law exempt from taxation, to be assessed at the rate of one per centum on the assessed value of such real estate; and on lands outside the limits aforesaid, but within the extended limits of this municipality, as defined by the Letters Patent issued by the Lieutenant Governor in Council on the 9th day of May, 1873, a rate of one-half of one per centum on the assessed value of such real estate. Now, we should like to know upon what principle of justice or equity the Council purpose taxing the ratepayers within the old limits of the city double as much upon the assessed value of their property as they do those who own property within the extended limits of the Corporation? It can be justified only on the plea that the assessor has overvalued the property in the newly acquired limits at a hundred per cent. more than he should have done, and the Council have taken this novel way of rectifying the mistake. This is the most charitable view anyone can possibly take of the Council's action. Besides, we question the legality of such a collection procedure. Once admit the adoption of such a principle, and there is no telling to what extent it may be carried. If it can be done in respect of the old limits and the new, it may, to suit the interests or circumstances of individuals, be applied to the various streets of the city. We may by-and-by see Yates streets property taxed upon its assessed value at one-half of one per cent. and Government street property taxed upon its assessed value at one per cent., and so on throughout the city. Assuming that all real estate is assessed at a uniform rate according to its value as determined by its location, we would ask where is the justice of imposing a higher rate of taxation upon one piece of property than upon another, no matter where it may be located? For instance, take a vacant lot on Government street valued by the assessor at one thousand dollars, and a lot of similar dimensions beyond the old limits value at one hundred dollars, and why, we would like to know, should the owner of the one lot be made to pay double the amount of taxation upon its *assessed value* that is demanded from the owner of the other lot? Such a system is manifestly partial and unfair, and we feel assured that if anyone should take the trouble to test the validity of the by-law in question before one of the Supreme Court judges it would be disallowed. The Council cannot make fish of one man and flesh of another, but in the matter of taxation all must be treated with strict impartiality. As it now stands, look at it, the present revenue by-law is a very objectionable piece of municipal legislation.

A Pretended Grievance.

Our morning contemporary gave publicity yesterday to a "Card," addressed to "The People of British Columbia," signed by John W. Reed, John H. Reposit, and Harvey M. Warburton, complaining that they had been induced to come to British Columbia with a view to settlement upon representations made by the Agent of the Province at San Francisco, and that because they did not find everything just to suit them, they are pleased to denounce the whole thing as a swindle, and make this an excuse for leaving the country, whereto they "would fain have made homes for themselves and for others whom they represent." The "card" bears indubitable evidence of having been coined in the *Colonist* office, and may simply be looked upon as another discreditable trick, having for its object to damage the interests of the country abroad and to weaken the influence of the Government at home. We know nothing about the gentlemen whose names are appended to the "card" in question, and are more than half persuaded that they exist only in the perturbed imagination of our neighbor. Be that as it may, the ground-work of their complaint is imaginary if their existence is not. Some people appear to entertain the notion that, having come to this Province with view to take up land for settlement, all they should be expected to do is to make their intentions and desires known at the office of the Chief Commissioner of Lands and Works, and that thereupon the Chief and all his aids should devote themselves specially to their service, to the exclusion of any and all other duties that for the moment may be pressing upon them; and when it happens, as it generally does, that such expectations cannot be as fully met as they imagine they should be, they are only too apt to feel aggrieved and complain that they have been badly treated. During the past month or six weeks there have been an unusual number of persons seeking information at the Land office concerning public lands for settlement, and the *Colonist's* cooked-up "card" contains the first whisper of complaint that we have heard from any quarter that the Government had failed to bestow every possible attention, and freely to give all the information of which they were possessed, to those who made application therefor. To give perfect satisfaction to every one in search of land, would be to undertake a hopeless task. People are not always reasonable in their expectations and demands. For instance, not very long ago a Frenchman got in an appearance at the Land Office, and represented that he wanted to take up a certain piece of land under the free grant provisions of the new Land Act, and gave the best to describe the whereabouts of the land to which he had taken a fancy. It was discovered that he had fallen in love with Beacon Hill, and desired to take it up and convert it into a milk ranch! If there be any truth in about the "card" in the *Colonist*, possibly the gentleman who wanted to acquire Beacon Hill on such easy terms, is one of those who joined in a pathetic appeal "to the people of British Columbia" because the Chief Commissioner of Lands and Works could not quite see the propriety of turning our public park into a milk ranch. Another would have been quite pleased to take up land on the lower Fraser, but as he would accept nothing less than 250 acres as a free grant, and that he could not get, so he went away dissatisfied, and most likely he is another who signed the "card." The policy of the Government was clearly explained to both these persons—that on the east side of the Cascades they could go and take up land to the extent of 240 acres, whether surveyed or unsurveyed, as a free gift from the Crown, or they might take up 160 acres on the lower Fraser, anywhere within the range of the free grant townships, but neither offer suited them, and so they will probably go to the States, and if they can there obtain better lands, and on more favorable terms, we shall be glad to hear tell of it.

Hardy Gillard.

The following concerning Mr. Hardy Gillard, formerly in business in this city, and who has turned showman, is taken from a London paper: "Mr. Hardy Gillard, one of the most energetic lecturers we have ever listened to, is now exhibiting his great American Panorama at this hall, (St. James's Large Hall). The views for the most part follow the track of the Pacific railway, from New York to California; but occasional breaks are made for the purpose of showing the most interesting points in the neighborhood. A painting, forty feet long, giving a bird's eye view of the country, is first exhibited; and this, taken in connection with the descriptive lecture, forms a key to the Panorama. Starting from New York Mr. Gillard presents, amongst others, views of the Hudson river, Niagara Suspension bridge, the Falls, the Oil country, Detroit, Chicago, Salt Lake valley, Brigham Young's residence, San Francisco, and the Golden Gate of California. The paintings, said to be copies from photographs, are exceedingly good, and the descriptive lecture is eminently instructive. The remarkable conveniences offered in Pulman's Palace Railway cars for eating and sleeping while travelling are illustrated in a very graphic manner, and the journey is enlivened by many agreeable stories. Bathers in the Salt Lake, we are told, come out perfectly white after five minutes' immersion, a circumstance that has given rise to the suggestion that all the "niggers" should be sent to bathe there. A seasonable anecdote is founded on the steamboat ride from New York to Albany. The journey of 150 miles is accomplished in six hours, and the excursion is much favored by the citizens on account of the breezes enjoyed during the rapid steaming. Among the pictures is the railway ferry at Detroit, which is shortly to be superseded by a tunnel. Mr. Gillard is complete master of his subject, and treats it with an earnestness that commands and ensures attention.

THE SANDWICH ISLANDS SUGAR CROP.—A correspondent of San Francisco *Alta*, writing from Honolulu, says: The prospects are good for taking off a large crop this year—say 3,000,000 lbs; but if we cannot get a price for the same, it will not do much good. There seems to be an impression prevailing that our planters are making too nice a quality of sugar. That is, they are trying to place in your market a quality that will compete with circle C, and thus running counter to the interests of the refiners, besides having to pay a high rate of duty. Some are thinking of returning to the "open train," to run out a low grade heavy sugar.

THE Victoria, B. C., STANDARD, which is the organ of Mr. DeCosmos, insisted very strongly some weeks ago on the right of British Columbia to representation in the Privy Council. It said that Sir F. Hincks would not have been elected to represent Vancouver only that it was thought desirable to have a Cabinet Minister to represent a constituency in that Province, &c. Since the reconstruction of the Cabinet it blames the other representatives of the Province and not the Dominion Government for the manner in which the Pacific Province has been slighted.—*St. John Freeman.*

AN IMMENSE LAND SLIDE NEAR LIMA, PERU. Havana, August 19th—Late advices from Lima, Peru, report that a serious accident had occurred sixty miles from that city. A body of earth of ten million cubic yards fell from the mountain side into the valley, severely injuring a number of persons and damming up a river, the water of which rose 109 feet above its usual height. Engineers are of the opinion that the water will soon burst its barriers, and that it then will rush toward Lima, sweeping everything before it and submerging the lower portion of that city.

SONS OF TEMPERANCE.—The Hon. W. O Clark, P.W. Patriarch of the Sons of Temperance, working under the Grand Division of California, organized a Division of the Sons of Temperance in this city, on Monday, the 25th instant, under the name of "Victoria Division, No. 1," and the following officers were elected and installed for the current quarter: N. Shakespeare, Worthy Patriarch; W.A. Pollard, W.A.; Robt. Butler, W.S.; R. Thornhill, W.C.; E. J. Shakespeare C.; F. Tuckfield, A C.; W. Spence, I.S.; John Porter, O.S.; Wm. Harrison, P.W.P.

BILLIARDS.—The Colonial Hotel billiard room, which for the past fortnight has been closed for repairs, will be reopened to-night. The room is improved in various ways, fittings, etc., having been thoroughly renovated, the tables adjusted, and other alterations made for the convenience of the guests of the hotel and the public in general. Jas. Friedman, marker, will attend to the wants of those who patronize the room.

POLICE COURT, YESTERDAY.—James Bearns, charged with stealing sundry wearing apparel, the property of one James C. Scott, from the house of Mrs. Duross, near Ogden Point, was remanded on bail. John Matthews, a drunk and disorderly, contributed his mite to the city revenue.

FOR NEW WESTMINSTER.—The Maude, which takes the place of the Enterprise during her overhauling, didn't get away yesterday. This was consequent upon a mishap which befel her boiler. She leaves at 5 o'clock this morning, having made everything tight.

PASSENGERS.—The following were booked per steamer Prince Alfred for San Francisco, in addition to passengers whose names appeared yesterday: L. J. Ashford, C. Rabson, D. C. Leroy, M. Lewis, Mrs. J. A. Webster and two children, and twenty in the steerage.

A meeting of the members of the Saanich Agricultural Society will be held at the old School House, South Saanich, on the 13th prox., at 2 p. m. to arrange the preliminaries for the approaching Saanich agricultural show.

FOR THE SOUND.—The steamer North Pacific sailed at 11 o'clock yesterday morning for Olympia and way ports with a large number of passengers, the overland mail and freight on board. She returns to this port to-morrow.

THE following is the shipment of treasure per steamer Prince Alfred yesterday:—Bank British North America, $50,992 32; Bank British Columbia, $23,336 82; F. Garesche, $7,329 26.—Total, $81,662 37.

SAILED FOR SAN FRANCISCO.—The steamer Prince Alfred, Capt. Sholl, sailed at 6 o'clock last night with about 60 passengers, mails and a quantity of skins and other freight for San Francisco.

THE Municipal real estate tax by-law recently issued, is published this morning, and may be found in our columns. Copies of the by-law can be had from the assessor.

Report of the British Bark Windermere, Robert Yeaman Master, from Honolulu, Hawaiian Islands, to Victoria, Vancouver Island, B. C.

Left Honolulu at 10 a. m. on the 28th July, 1873; had nice gentle breezes until we came opposite the east end of the island, when had six hours calm; at 10 p. m. got a brisk breeze which at first was veering from east to northward. At midnight passed the northeast end of Oahu; the wind became steady and brisk. August 3, in lat. 35° 32′ N., long. 158° 20′ W., had light variable airs, considered it the northern verge of the N. E. trade winds; from thence to the 15th had continuous light winds and thick fog, the sea all the time being as smooth as a pond; midnight heavy rain, wind shifted with a squall to S. W., which gave us a run of 244 miles by patent log, and an observation of the polar star, getting the first correct observation since we left the trades. August 19th, sighted the high land about Barclay Sound, V. I.; 7 p. m., Cape Classet light, E by N. 12 miles. During the night had not wind enough to stem the tide which was running out of the Straits, and consequently carried us out with it. August 20th, had a gentle breeze from the westward; passed a ship towing outwards, and a brig beating out; 8 p. m. abreast of Clallam Bay, wind increasing and suddenly got as thick as possible with fog; took in all light sails and laid main yard aback for two hours; the weather brightened at times a little; kept ship before the wind and shaped a course for the Race Light. Midnight, heard a bell and passed a light so quickly that we had no chance to distinguish it. At the rate we passed it we thought we had a very strong tide setting us to the eastward; hauled to the N. W., constantly keeping the lead going. August 21st, 8 a. m., a dense fog; brought up in Beecher Bay in 45 fathoms water; 3 p. m., clear, got underway, and arrived at Royal Roads at midnight, all well.

Shall We have a Change?

The Canadian press is already mooting the question of a change of Cabinet, and that Sir A. T. Galt will be the next Prime Minister. The Cornwall *Freeholder* says that it has the best authority for saying that Sir John A. Macdonald will retire from the Government, and that a reconstruction under Sir A. T. Galt will take place. The Montreal *Star* has an article on the same question, from which we quote as follows: "Should it become necessary for Sir John A. Macdonald to resign, we believe the reorganization of the Government by Sir A. T. Galt would meet with the approval of the country. Of course there are those who imagine that the retirement of Sir John would mean the instant instalment of Messrs. Holton, Huntington & Co., but a little reflection will show the fallacy of this theory. If Sir John and one or two of his colleagues are guilty of the offences charged against them, they have at least this to plead—that they were bent upon giving the country a Pacific Railway, whereas it would seem that Mr. Huntington and his colleagues are merely bent upon gaining the Treasury Benches, while the means by which they hope to attain power appear to be such as should naturally cause fair-minded men to entertain grave doubts as to their being able to honestly administer the affairs of the country. If, as is generally believed, the confidential correspondence that has been given to the world has been obtained by bribing men's confidential secretaries and clerks, it must be admitted that they who would resort to such means are not fit to be the advisers of his Excellency the Governor General. They might make first class whisky informers, and run the redoubtable Mason out of the Dominion, but it would be altogether too grim a joke to expect honest government at their hands. It would be "out of the frying-pan into the fire," with a vengeance. Sir John may retire or be ousted, but we believe the country has before this perceived that, as appearances are at present, Messrs. Holton, Huntington & Co. have to clear themselves of a good deal ere they can presume to ask to be entrusted with the national helm.

THE SPRING RIDGE WATER WORKS CO.—Messrs. J. P. Davies & Co. have received instructions to sell sundry effects—the property of the Spring Ridge Water Works Co.—consisting of horses, water carts, harness, etc. Full particulars shortly.

FOR THE INLET.—The steamer Isabel will sail at 7 o'clock this morning with the bark Delaware in tow for the Inlet. She will return here with the Glympse, Capt. Hornsby, laden with lumber and bound for New Zealand.

POSTPONED.—The sale which was advertised to take place to-day at Messrs. J. P. Davies & Co.'s rooms, is unavoidably postponed until Friday next.

FOR NEW WESTMINSTER.—The steamer Maude will leave at six o'clock this morning, for New Westminster and settlements on the lower Fraser.

FOR COMOX AND WAY PORTS.—The steamer Douglas sails at seven o'clock, this a.m., for Comox and ports on the east coast, returning on Saturday next.

The Public Schools.

EDITOR STANDARD:—Your contemporary, the *Colonist*, has, from time to time, when hard up for an item, published some nonsense about what he calls the crowded state of the girls' school, on Broughton street. He did so again yesterday, and it is therefore now time for me to speak out. In consequence of his previous statements, I made a point of attending the examination in the said school at the beginning of last month, and was agreeably surprised to find that these remarks of his were purely sensational and utterly false. The place was not at all crowded—in fact, there was plenty of room and to spare. And now the serious question occurs—what possible object can this man have in thus deceiving the public? Whose axe is he grinding? his own or a friend's. Although the site of the school is not all that could be wished, yet I congratulate the trustees on having selected a locality so central and so quiet.

Saanich Road.

EDITOR STANDARD:—The new road in South Saanich has been completed, and is pronounced by all who have been over it to be a first-class road, and when gravelled will be the best piece of road in the district. Too much credit cannot be given Mr. Tierney for the excellent manner in which he has finished this road. It is to be regretted that Mr. Tierney should be subject to so much inconvenience by the non-acceptance of the road by the Government. The fact that Mr. Tierney took the contract of making and completing this road $800 lower than another well known contractor shows that he thoroughly understands the art and cost of road making. Farmers in this district who are good road judges are satisfied.

The Indians of British Columbia.

[From the Toronto Mail.]

The report of the Superintendent of Indian Affairs for British Columbia is a sad book. It is estimated that there are twelve nations comprising 28,520 souls in the Province. There is no suffering among them, for the bear, elk, deer, mink, marlin, beaver, wolverine and otter amply supply their wants; but their habits and customs practised and carried on within hail of civilization are horrible. Dog-eating and cannibalism prevail among the Comox, Hydah and Sicanie nations. Whenever an opportunity arises, they take the scalp of a white man, provided he has something to give up more valuable than his scalp. In 1864 the Alit Nation tribe killed and murdered the officers and crew of a trading sloop, whereupon Admiral Denman with two or three of her Majesty's ships of war, opened fire with shells on the canoes and villages and taught Lo a lesson which had its influence throughout the Province. The Indians in the interior are far superior to their brethren on the coast. The latter are thieves and licentious, their corruption and depravity being promoted by the lower grades of the white race with whom they are brought in contact. At the great medicine feasts held by the Tsimpsheans, Quackewiths, and Bella Coolas, slaves are sacrificed and devoured. But when education had been pushed, these coast Indians exhibit extraordinary mental capacity. They manufacture gun stocks, mainsprings and household furniture with great facility and elegance. They are splendid carvers in wood, metal and slate, and the jewellry fashioned by them from an ordinary gold or silver coin would do credit to first class artists. Their canoes are models of design and accurate workmanship; and it is a singular fact that the lines of the first clipper built by an eminent ship-builder of Boston, were taken from a Nootka canoe. Some of them are excellent miners. From $15,000 to $20,000 is annually contributed to the wealth of the Province by the mining on the Thompson and Fraser Rivers, which is carried on almost exclusively by the natives, at low water. Wherever a bar has collected some gold, a batch of Indians may be seen during the coldest weather, rocking their "cradles" and saving the precious ore. The Indian trade is at least 75 per cent. of the whole trade of the interior. In 1871 $228,045 worth of furs and fish oil obtained from the Indians was exported from the Province, together with $10,790 worth of cranberries. But with all this seeming prosperity the moral condition of the Indian is most lamentable. Gambling is his favorite amusement. He has no knowledge of the laws of marriage or the requirements of social decency. And nothing better can be expected until the present missionary force has been largely recruited. It is a matter worthy of the consideration of some of our Canadian churches.

Kootenay Letter.

EDITOR STANDARD:—I trust you will find room in your valuable columns for the insertion of this letter concerning the management of the Kootenay trail. Now fifteen hundred dollars is being granted from the Government, I may say yearly, to put the Shephard-Kootenay trail in order, and a certain individual has had the trust reposed in him to perform the work at a good monthly salary the same to be taken out of the fifteen hundred dollars. The following will show, and from an eye witness how the work is carried out: First—Mr. P. F., the Government agent (not contractor) will arrive at Colville, W. T., about the latter end of April, and after making arrangements with the Oppenheimer firm to supply provisions, and having engaged two Colville half-breeds to do the work, at $60 per month, one to work and the other to cook, they started on their way to Kootenay rejoicing. Now I wish to show Mr. Editor, the deception and injustice that is perpetrated yearly. The government agent with his two half-breed train started down from Kootenay this year about the 20th of July, I believe to cut the trail out as far as Round Prairie which is 18 miles south of the boundary line, to facilitate the trains coming from Walla Walla to Kootenay. That part of it may be very well, but the trail should be in good repair before that time. He then returns to the junction of the trail and works his way to Fort Shephard, which will take him with his working party of two men till fall to cut the trail out. It will then be too late for any trail. The The Government mail contractor for Kootenay, has to go round by way of Colville and Spokane, and it will be always the same if the Government does not look to it, and see that some person is put in charge of the trail, who can get the work executed in the early part of the season, for the benefit of all, by employing a sufficient number of men, and not holding out the job for six or seven months, so as to make it a sinecure. I am sorry to say, but nevertheless is the truth, that the gentleman in charge of the work has expressed himself that he would not give certain individuals a day's work, if they had not bread to eat. Such has been the case, and to those who have helped to develop the country for the last six years. So much for the individual in charge of the trail. Let us hope for the future that somebody will be placed in charge of the trail who will take more interest in the Government, and not show quite so much selfishness.

Reprehensible.

EDITOR STANDARD: The propriety of publishing a letter which appeared in the *Colonist* yesterday morning, headed "A card—To the people of British Columbia," is very generally questioned by the public, who believe that it is anything but good taste to allow our detractors here the use of the columns of a newspaper to spread broadcast, untruths concerning the Province. These men, who anticipated by a few weeks, the free grant system, should go to work; the farmers in the country are in need of labor, and so are the miners in Cariboo. And whilst I don't attach so much blame to the men who have attached their signatures to the card, as I do to the owners of the paper in question, for allowing its insertion, and who no doubt *prompted* it, yet I think these men would be in no way injured,—on the contrary, might be much benefitted,—were they to earn a little money by working for others, during the period that our Government is perfecting the details of the land grant system, and thereby be fully prepared to enter upon and improve their free grants, when the proper time shall have arrived.

STITCH! STITCH! STITCH!—But no longer with fingers weary and worn. For the justly celebrated "Lockman Sewing Machine" can be had of the undersigned. Travelling Humbugs.

EDITOR STANDARD: Our citizens have lately been pretty well humbugged and befooled by visitors, giving public entertainments, who with puffing announcements have made themselves known as distinguished celebrities. To begin with: we had an individual calling himself Professor Valentine, "the only living pupil of the late celebrated Robert Houdin." By this representation of himself, he imposed upon the credulity of our citizens, secured a good house, pocketed their money, and in return gave such an exhibition of his art in legerdemain, that having a wholesome fear of the pelting of rotten eggs, made no second appearance.

Next on the list comes another Professor. Professor Chaney. Professors now-a-days seem wonderfully plentiful. This gentleman diving into the mysteries of astronomy and theology, endeavored to show that our old established conceptions of the Holy Scriptures were a delusion, that the characters represented were myths, and by indulging in unseemly levity, and ridicule upon sacred matters. This trader in scepticism walked off with sufficient funds to induce other adventurers to follow in his wake.

Our last visitor also comes with an application to his name; not this time "Professor," but "Honorable." Honorables, by the bye, like Professors, are getting so abundant that it is no longer any privilege to be acquainted with them. The honorable gentleman of whom I am about to speak, proposed to tell our citizens "what he had seen and heard in his travels round the world." But on opening his mouth for that purpose, by talking of looking things *squar* in the face, and other such phrases, showed himself to be such an illiterate man,—so violated the rules of grammar and pronunciation, that any boy of twelve years old at our public schools would be ashamed.

It is high time it should be known to such folks that we in Victoria are an intelligent community, fully appreciating what is excellent, indulgent even to those not quite up to the mark, but that we hold impostors in merited contempt.

b. The Pilot Grounds for the several Ports of the Province of British Columbia shall for the purposes of enforcing these Rules and Orders, be taken to be as hereby defined, viz:—

VICTORIA AND ESQUIMALT.—Outside of a line drawn from Trial Island to Race Rocks Light, bearing N. E. by N., and S. W. by S (magnetic).

BURRARD INLET.—A line from Passage Island to Point Grey, bearing of the latter being S E. (magnetic).

NANAIMO AND DEPARTURE BAY.—Outside a line drawn from Entrance Island to a point on Vancouver Island, one mile W. of the West Rocks, bearing W. (magnetic,) and to the southern entrance by Dodd's Narrows, a line drawn from the mark on Gabriola Island to Sharpe Point, bearing S. W. by W. ½ W., and N. E. by E. ½ E. (magnetic).

OTHER PORTS.—To be defined from time to time by the Pilot Board, as occasion may arise.

c. Any Vessel having discharged a portion of her cargo at Esquimalt, and paid full Pilotage into that Harbour shall, on proceeding thence to Victoria for the purpose of discharging the remainder of her cargo, only pay additional Pilotage at the rate of $1 50 per foot, if proceeding under or with the assistance of steam; and the same rule shall apply to vessels proceeding from Nanaimo to Departure Bay, or *vice versa*, whether with or without the assistance of steam.

d. In the event of a Pilot taking the charge of a Vessel proceeding from the Pilot Ground of Victoria or Esquimalt Harbours, or of Royal Bay, to that of Nanaimo Harbour, Burrard Inlet, or the Sand-heads of Fraser River, or *vice versa*, he shall receive additional pay at the rate of $3 per foot for Vessels under sail, and at rate of $10 per day for Steamers or Sailing Vessels in tow of a Steamer while at sea. Twenty-four hours to be counted as a day; any fraction of a day to be counted as a whole day. All Vessels under steam, or in tow of a steamer, to be one-fourth less of the above rates.

e. Any fraction of a foot, not exceeding six inches, shall be paid for as half a foot; and any fraction of a foot exceeding six inches shall be paid for as a foot.

3. Every Master of any Ship who shall employ as a Pilot any unlicensed person, or any licensed person acting out of the limits for which he is qualified or beyond the extent of his qualification, after any Pilot licensed shall have offered to take charge of such Ships, shall forfeit for every such offence double the amount of the sum which would have been legally demandable for the Pilotage.

4. Any person may legally, and without being subject to any penalty, assume or continue in charge of any Ship as a Pilot, so long as no Pilot duly licensed shall have offered to take the charge, or where and so long as such Ship shall be in distress, or under circumstances which shall have rendered it necessary for the Master to avail himself of the best assistance.

5. Any Licensed Pilot, within the limits of his license and the extent of his qualification, may supersede, in the charge of any Ship, any person not licensed, or acting beyond the extent of his qualification; and every person continuing in the charge of any Ship without being a Licensed Pilot, or without being licensed to act within the limits in which such Ship shall be, or beyond the extent of his qualification, after any Pilot licensed and qualified shall have offered to take charge of such Ship, shall forfeit any sum not exceeding two hundred and fifty dollars, nor less than one hundred dollars.

6. If any person suspended or adjudged to have forfeited his license shall, during the time of suspension or after such adjudication, take upon himself to conduct any ship as a Pilot, such person shall be liable to all such penalties in like manner as are provided against any person who shall Pilot any Ship without having been licensed. (*vide* Paragraph 5).

7. All sums due for the Pilotage of any Ship trading to and from any Port in the Province of British Columbia, shall be recovered in a summary manner before any Stipendiary Magistrate, or two Justices of the Peace, from the Owners, or Master, or from the Consignees or Agents who shall have paid or made themselves liable to pay the said charge for the said Ship, in the Port of her arrival as to pilotage inwards, and in the Port from whence she shall clear out as to pilotage outwards, which sum may be levied in the like manner, according to the amount, as any penalty of the like amount may be levied under "The Pilotage Ordinance, 1867."

8. Any Vessel, not otherwise exempted by these Rules and Orders, or the Schedule hereto, shall pay half rates of full Pilotage inwards to the first duly qualified Pilot who shall hail any such Vessel outside the Pilot ground, or exhibit the Pilot Flag at a distance not greater than one mile from such Vessel in the event of his service not being accepted.

9. The choice of outward Pilot to be left to the Captain; but in the event of the ship taking no Pilot outwards, then the half-pilotage to be paid to the first duly qualified Pilot that shall offer his services.

10. No Vessel shall be rendered amenable to half pilotage rates for the Straits navigation by declining the services of a qualified Pilot.

11. All Vessels requiring the services of a Pilot shall hoist the usual signal at the fore; and when outward bound not less than two hours prior to departure.

12. The Pilot Flag shall be the same as established by law in all countries under British jurisdiction, viz: horizontal white and red, (size at discretion of Pilot Board).

13. Any Vessel driven either by stress of weather or other cause to anchor or seek shelter in any of the Bays or Roadsteads of the Province shall not be liable to pilotage.

14. In all cases where a Vessel shall be in tow of a Steam Vessel the Pilot on board the Vessel towed shall have the command and direction of both Vessels so long as the Steamer shall be fast to the other Vessel, notwithstanding a Pilot may be on board the Steamer.

15. Pilots taken to sea on board any Vessel against their will, shall be entitled to claim from the Master or Owner of such Vessel the sum of five dollars ($5) per diem until the date of their arrival at the Port from which they were taken, and in addition to the above, their expenses back to said Port.

16. No Steam Vessels plying regularly once a week, or oftener, between Victoria and any of the various Ports on Puget Sound, or in the Straits of Fuca, shall be charged with Pilotage, or half Pilotage, unless the Master of such Vessel shall actually take a Pilot on board on any such trips, or otherwise actually engage the services of a Pilot.

REVISED BY-LAWS

FOR THE

REGULATION OF PILOTS

IN THE

PROVINCE OF BRITISH COLUMBIA,

Made in pursuance of "The Pilotage Ordinance, 1867," all previous Bye-Laws being hereby repealed.

[22*nd August*, 1873.]

Due notice of the time and place of examination will appear in the *Government Gazette* as often as the Board may deem necessary. Candidates will be required to prove their local knowledge of the Coasts and Harbours of the places for which they may be desirous of obtaining a license; to possess a correct knowledge of the method of finding a ship's position on the Chart; to have a general knowledge of the tides; and to furnish to the Board satisfactory evidence of their former services, good conduct, and sobriety.

2. No pilot shall add to, or in any way alter, his license, or make or alter any endorsement thereon, nor shall he be privy to any such license or endorsement being altered.

3. Every Pilot who shall observe any alteration in any of the Sands or Channels, or that any of the Buoys or Beacons in any of the Harbours of the Province are driven away or broken down, or out of place, shall forthwith deliver or send a correct statement thereof in writing to the Pilot Board.

4. No Pilot shall exact from any Master of a Vessel more than he is entitled to by any of the Rules, Regulations, Orders, or By-Laws passed by the Pilot Board; neither shall any Pilot offer his services for less than the specified rates, under pain of being guilty of a misdemeanor.

5. Every Licensed Pilot shall continually carry with him his License and a printed copy of all the By-Laws, Rules and Orders, relating to Pilots and Pilotage, in force for the time being; and is required to produce the same to the Master of any Vessel on boarding such Vessel.

6. Every Licensed Pilot shall, when in charge of any Vessel, exercise the utmost diligence and attention in the prosecution of his duty.

7. No Licensed Pilot shall be absent from the Port or Ports for which he may be licensed, without leave of absence previously obtained in writing from the Pilot Board.

8. All cases of disputes between Pilots, or between Masters of Vessels and Pilots, shall be referred to the Pilot Board, whose decision shall be final.

9. Every Licensed Pilot who shall offend against any or either of the By-Laws, Rules, Orders, or Regulations relating to Pilots and Pilotage, in force for the time being, shall for every such offence (whether the same shall subject him to any pecuniary penalty or not, and in addition to such penalty, if any) upon conviction by the Pilot Board, be liable to have his License annulled and forfeited, or suspended, at the discretion of the Board.

10. If any Vessel be stranded, or suffer other accident, when in charge of a Licensed Pilot, the License of such Pilot shall thereby be suspended, pending the investigation by and decision of the Board.

11. It shall be the duty of every Licensed Pilot at once to report to the Pilot Board any accident that may have happened to a Vessel when under his charge.

12. From and after the 1st of August, 1873, each Licensed Pilot shall be liable for, and shall pay to the Pilot Board, the sum of Ten Dollars as an Annual License, payable in advance, half-yearly, on the 1st day of August and the 1st day of February of each year. In addition to such yearly license, every Pilot, on appointment, shall pay the sum of Ten Dollars to the Board as an Entrance Fee. Every Pilot making default in the payment of his entrance fee or annual license, will be liable to a suspension of his Certificate until the money is paid. au26
